New York Stock Market.

New York, May 5.—Governments and State bonds dull and steady. The labor troubles are still the controlling influence in the stock market. The news was alarming all day but the belief is growing that the authorities are determined to enforce the law at all hazards, and that the worst of the trouble has been passed. The market opened irregular but became firm, to strong and so remained until towards 11 o'clock, when it yielded small fractions, except Jersey Central, which was especially weak, losing upwards of 1 per cent. After 12 o'clock it was quiet and steady until nearly 2 o'clock, when there was a renewed activity accompanied by an increased strength, which lasted until the close of the market closing at or near the highest prices of the day.

A Huge Blaze.

London, May 5.—A dispatch from Burmah, states that the insurgents have got possession of Mandalay and destroyed by fire no less than 4,000 houses. Among the buildings burned were the Chinese and Siamese bazars. The hostility of the natives who remain loyal to the dethroned King Theebaw to the Chinese is intense, because of the Chinese openly avowed endorsement of Great Britain's seizure of Burmah. Officers commanding the British forces have telegraphed to Dufferin, Viceroy, that they are powerless to prevent the rebellious rioting of natives and have urgently asked for reinforcements.

The advertisement of Dr. Foote, Sr., appears in *The Herald* every Sunday. Therein will be found his address.

She Will Get There.

Washington, May 5.—The Senate committee on post offices and post roads this morning directed that a favorable report be made on the case of Mrs. Thompson to be postmistress at Louisville.

ALABASTINE!

THE ONLY DURABLE WALL FINISH.

Please Read the Following Testimonial as to its Merits:

SALT LAKE CITY, February 6th, 1886.

Messrs. Sears & Liddle:

GENTLEMEN—It gives me pleasure to comment on the superior work we are now doing with the cement from Alabaster rock, called Alabastine. The effects produced by it are very brilliant in using, such as Chiseling, Freezing, etc. and I do considerably recommend the article as being one of the best improvements ever offered to the trade or public.

I can always afford to guarantee my work done with this material, so that I am fully satisfied with it, and would recommend it to all fellow workmen.

Respectfully,
W. C. MORRIS,
The Painter.
